

Hugo Buret

Candidate statement for SKOS Board

As a local homeowner, father of 2 children (7 and 9) and resident for over a year, I'm excited at the opportunity to actively participate in the development and conservation of this unique natural space in the city.

I am running for the board as I believe SKOS is a significant asset for this neighborhood to preserve its connection to nature and continue developing a sense of community on the hill. Having lived in larger cities like Paris or Sydney, I appreciate having the opportunity to feel connected to the community and easily accessing a hiking/walking natural area.

What I bring to the table:

- 15+ years in leadership capacities at eBay and Google, in France and in the US. Specialized in Business development and legal negotiations.
- Thought-leadership: ability to develop a vision and execute against it.
- Commitment to maintaining the space as a natural open area; for the benefit of the neighborhood and for my 2 children (7 and 9) with who I spend time hiking, flying a kite or just looking at the views.
- Proximity: I live on Rhode Island and 24th, 1 block away for the space.

Thank you in advance for considering my candidacy.
